

FieldhouseUSA Guidelines

Thank you for visiting one of our many FieldhouseUSA locations!

With the recent CDC announcement, all Fieldhouse locations will allow guests to remove their masks if they are fully vaccinated. We will not request proof of vaccination as we trust each of our guests and welcome you all here at FieldhouseUSA.

We are extremely proud of how you, the players, coaches, parents, and all guests have entered FieldhouseUSA since re-opening and opening. You have cooperated with and followed the Guidelines as mandated from the State throughout. We are also proud that Fieldhouse has successfully hosted thousands of participants and guests that have either visited, or participated in our leagues and programs, since. That success would not have been possible without the great cooperation we have had from every individual and family that entered our doors. We thank you for helping create and maintaining a safe environment as we all have navigated this pandemic, together.

Since opening in 2009 our philosophy has always been that participating in extracurricular activities is a choice for each individual. Some do it for fun, some for exercise, some for social interaction and others for the competitiveness of the activity. Whatever the reason you choose to participate, or have your kiddos choose to play, it is an individual choice. That choice also includes entering any Fieldhouse location with the understanding that you are doing so at your own risk.

Fieldhouse is currently recommending anyone that is exhibiting any symptoms related to COVID-19 or any other type of illness not enter any Fieldhouse location. Please use common sense and be symptom free before entering.

Until COVID-19 is either eradicated, or every individual has been vaccinated, or a cure is found, there is no way to eliminate the risk of infection and as a result FIELDHOUSE strongly encourages all participants to follow the recommendations below as safety precautions. The information in this document is not intended or implied to be a substitute for professional medical advice, diagnosis, or treatment, nor does FIELDHOUSE assume any liability or responsibility for the recommendations provided herein.

We love our guests and trust you to make the right decisions including:

- Be symptom free prior to any activity.
- Stay home if you are sick or do not feel well.
- Be aware of and disclose any potential contacts with affected individuals.
- Wash and sanitize your hands often.
- Do not touch your face, eyes, or mouth with unclean hands.
- Practice social distancing when possible.
- Cover your mouth and nose with a tissue or your elbow if you cough or sneeze.
- Bring hand sanitizer and sanitizing wipes. FIELDHOUSE will provide bathrooms with soap and water.
- Properly dispose of your personal drinking cups, bottles, or utensils used. FIELDHOUSE will immediately throw away any left behind.

These Guidelines are provided for general informational purposes only and are not intended as, or should be relied upon as, specific medical or legal advice. All participants are strongly encouraged to consult with qualified medical personnel and/or public health officials for medical advice. Also, consult with federal, state, and local orders and/or laws for legal considerations. If you use any considerations provided herein, you do so at your own risk and specifically release from all liability, FIELDHOUSE, their directors, officers, employees, volunteers, and agents in connection with your use of the enclosed

Guidelines. FIELDHOUSE and the Regions make no warranties or statements as to the completeness, reliability, and accuracy of the information contained herein. Fieldhouse is open for all guests but in the end its everyone's choice to enter the facility as a guest, visitor or a participant in extracurricular activities and everyone understands that is done at your own risk.
